REVISED 2010 IDAHO WHEAT VARIETIES - SUPPLEMENT

During the 2010 survey, we summarized 92 different wheat varieties. The top twenty varieties account for 68.8 percent of the wheat planted in Idaho for the 2010 crop. This supplement lists estimates for 29 additional varieties which account for 22.3 percent of Idaho's total wheat planted.

Included in the report are acreages of wheat in which multiple varieties were mixed at seeding. Only one of these combinations had sufficient reports and acreage to be published.

Varieties listed in this supplemental report that were not listed in the 2008 wheat variety report include; AP700 CL, Alzada, WestBred 456, Hill 81, Cabernet, Juniper, Pettit, Eden, Yellowstone, Sprague, and WestBred Idamax.

Partial funding for the 2010 Idaho Wheat Variety Survey was provided by the Idaho Wheat Commission.
